DECEMBER 5 – 7, 2019

DIRECT MENTORING • CONSTRUCTIVE CRITIQUE • EXPERT FACULTY • ACTUAL DEPOSITION SETTING

Practice and Perfect Essential Skills in a Simulated Deposition Setting

Can you walk into a deposition convinced you'll get the information you need, secure the admissions you want from the opposition and test your case theories? Or if it's your witness being deposed, do you know how to prepare them for the experience and protect them from walking into traps?

NITA Deposition Skills ensures you are ready.

This program works. Return to your office empowered.

PARTICIPATE IN THIS COURSE AND YOU WILL LEARN TO:

- ✓ Use the Funnel Technique to exhaust a witness's subject knowledge
- ✓ Identify other potential sources of information
- ✓ Close off avenues of escape
- ✓ Work with documents and exhibits to gather information, refresh memory, and impeach a witness
- ✓ Test your potential theories—legal, factual, or persuasive
- ✓ Deal with opposing counsel's objections
- ✓ Manage difficult witnesses, counsel, and clients
- ✓ Become "comfortable with being uncomfortable" in the unpredictability of a deposition

This course incorporates real court reporters who will be taking a transcript of your final deposition. That transcript will be emailed to you after the course has completed.
